Education

KL University

2023 – 2027

B.Tech in Computer Science and Engineering — CGPA: 9.5

Guntur, Andhra Pradesh

Experience

Graphic Designer

July 2025 – Present

Moodale

- Engineered high-impact marketing creatives — including posters, social media ads, and campaign visuals — driving consistent brand presence across digital platforms.
- Collaborated cross-functionally with marketing and product teams to translate campaign goals into audience-targeted visual assets.
- Enforced cohesive visual identity through systematic use of typography hierarchies, color systems, and grid-based layouts.

Freelance Graphic Designer

May 2019 – Aug 2019

Self-Employed

- Independently designed and delivered brand assets, digital illustrations, and promotional creatives for multiple clients using Adobe Photoshop, Illustrator, and Canva.

Design & Marketing

Creative Designer & Developer

2022 – Present

Freelance Projects

- Conceptualized and executed multi-platform design campaigns — from print to digital — for student organizations and small businesses, boosting visual engagement.
- Leveraged typography, color theory, and layout composition to build recognizable brand identities and compelling visual narratives.
- Portfolio: <https://peshimam-ashar-mohammed.github.io/Portfolio/>

Projects

CineVault | HTML, CSS, JavaScript

- Built a dynamic movie library web app that auto-scans and indexes local film directories, implementing real-time subtitle detection for both embedded and external subtitle files.
- Engineered a clean, responsive UI enabling intuitive browsing, filtering, and management of large media collections without external dependencies.
- <https://peshimam-ashar-mohammed.github.io/CineVault/>

CyberToolKit | HTML, CSS, JavaScript

- Architected a browser-based cybersecurity utility suite offering network diagnostic tools, encoding utilities, and developer security helpers in a unified responsive interface.
- <https://peshimam-ashar-mohammed.github.io/CyberToolKit/>

Fitness Tracker App | React, HTML, CSS, JavaScript

- Developed a fully responsive fitness tracking SPA using React, implementing reusable component architecture and state management for scalable workout logging across all device sizes.
